ABOUT US

This season Myrtle Beach Travel Park is celebrating its 50th year of creating memorable family-oriented camping experiences. Since opening for its first guests in the summer of 1970, Myrtle Beach Travel Park has become a family favorite for multiple generations who spend long and short breaks from home enjoying the beach and the endless activities the park and surrounding area offers.

Initially, a franchisee operating under the name of Holiday Travel Park, the operators decided in 1980 not to continue with the franchiser and changed the name to Myrtle Beach Travel Park. In 1985 the land lease was not renewed by the original operators, and the property owner's family assumed operational responsibilities. A management team was hired to transform the park into the first choice for family camping. Over the years, under the guidance of the family members, the facilities and amenities have been consistently maintained and upgraded to the standards our guests have come to enjoy.

Currently, the park is 125 acres with almost 1200 sites, a half-mile of oceanfront, and a 17-acre freshwater lake. Guests can enjoy a large outdoor swimming pool, an indoor heated pool, a kiddy splash pool, and a lazy river. The kids can enjoy the Arcade and snack bar while the adults relax at the lakeside Tiki Bar and all can enjoy the fire pit on a chilly evening. Our full-time activities director keeps guests engaged all year round with holiday-themed events, children's activities, crafts, special events, and parties.

As Myrtle Beach continues to grow, Myrtle Beach Travel Park remains dedicated to its history of family-friendly recreation and entertainment.

MAKING THE MOST OF YOUR STAY

WiFi & TV Channel Info

We strive to provide the best possible Wi-Fi experience for everyone. The obstacles to delivering a reliable Wi-Fi signal in your home are fixed but, in our campground, we cannot predict the number or type of wireless devices our guests want to use, nor can we control the type of RVs in which those devices are used. For those reasons we cannot guarantee that our free Wi-Fi service will be compatible with every device and will work in every RV at every site, but that is always our goal.

To use our Wi-Fi service, look for MBTP_GUEST (faster) or MBTP_GUEST_2G (works with older devices). Both networks are available throughout the park. We recommend that you always try to connect to MBTP_GUEST first if it is available. There is no password required to access either network. If you are prompted for a password you are not connecting to one of our networks.

MBTP_GUEST and MBTP_GUEST_2G are public networks. We have no responsibility for, or control over, the Internet services you access and do not guarantee that any services are error or virus free. We are not responsible for the security of any information you transmit or share with any Internet service while you are using our Wi-Fi service.

Network performance may vary throughout the day as the number of devices using the service changes. Please be considerate of your fellow guests when using our service. If you have problems connecting to our Wi-Fi service please call our support line at (843) 999-0944. When prompted to leave a message please include your name, site number, a callback number, and a brief description of the trouble so that we can address the problem as quickly as possible.

We also offer free digital cable TV throughout the park. In 2018 our provider, Spectrum, converted all of our campsites to digital service. To use our service your TV must be able to receive a digital signal without the need for additional equipment. Most, but not all newer televisions are compatible with this requirement. If you connect to our TV service and do not immediately receive the channels listed below, we recommend that you re-scan the channels following your TV manufacturer's instructions. If you are unsure of how to do this, please call our office and we will try to assist you.
